Dear Parents and Guardians:

Greetings!

Part of the science curriculum of Assumption Antipolo is to provide experiences that would allow the students to appreciate nature and realize the importance of conserving and preserving our natural resources. In line with this objective, the Grade 4 students will have their educational trip to **Manila Ocean Park on October 5 , 2018** (Friday).

The trip aims to provide the students an opportunity to see underwater life through an oceanarium and enrich their knowledge on animal protection and conservation. It will encourage them to commit themselves in taking care of the environment and develop in them a deeper sense of appreciation for God's creation.
