Live Fully as God's Beloved!
School Thrust 2017-2018

December 13, 2017

Dear Parents,

Greetings of peace!

In support of Assumption Antipolo's commitment to quality education, the Junior High School English Department has partnered with Achieve3000 in developing students' reading skills. Achieve3000 is an online differentiated instruction program that offers daily informational text tailored to each student's reading level complete with engagement activities and comprehension tests.

Like all skills, more practice means more gains. That is why it is crucial that students maximize the use of this program. In line with this, I would like to inform you that a downloadable version of Achieve3000 is now available which can be installed as an application in any device, both android and Apple products. Instructions for downloading can be found in the attached document. However, please note that there can only be one account per device.

Please see back.

Although it is not a requirement, I highly encourage the installation of this application in your daughter's cellphone and/or tablet because Achieve3000 will be more accessible to her in this format. Furthermore, I believe that having the program in her personal device/s will make your daughter responsible for her own learning which will result in more benefits apart from improved reading skills. Needless to say, having students take ownership of their own progress will certainly help them develop life skills.

Thank you for your continued support of our programs. Together let us help your daughters become life-long learners.

Very truly yours,

Mrs. Barbara Karren C. Paraguya
Junior High School English Team Leader
